## ■ Introduction

Copy/Paste Markers is a script that allows you to copy a selection of markers from a layer onto other layer(s).

## ■ Requirements

In order to run Copy/Paste Markers, you'll need After Effects CS3 or above.

## ■ Limitations

The demo version is limited to **At Cur. Time** and **Comp. Length** selection ranges.

## ■ Version History

- v2.0
  - Added: Multiple Marker Selection
- v1.0
  - Initial release

## ■ Contact

For everything related to licencing you should [contact aescrpts](#) and open a ticket there.

For every other questions or requests, the best way is to add a comment on [Copy/Paste Markers's aescrpts forum](#).

If you want something more private, you can [contact me here](#) or through [Twitter @Yenaphe](#).

To know more about the project behind these scripts, be sure to check [The Mythomen Movie Project \(mytho.mn\)](#)

I speak french and english, so select your language of choice ;)
