

QuickImporter for Premiere Pro, After Effects and Audition Installation Instructions

QuickImporter is a ZXP extension. Unfortunately, Adobe discontinued their development of Adobe Extension Manager, which was used to install ZXP extensions. Note that Adobe Extension Manager does not work anymore with CC 2014 or newer! As an alternative, we developed and maintain the *aescripts + aeplugins ZXP installer*. So please install QuickImporter using *aescripts + aeplugins ZXP installer* as described here.

Installation on Mac OS

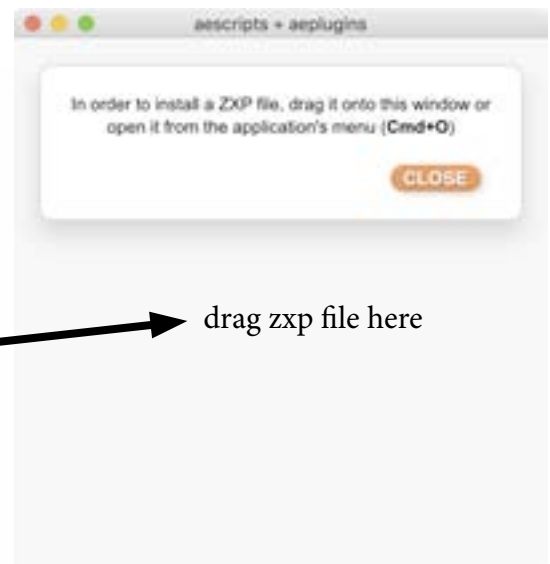

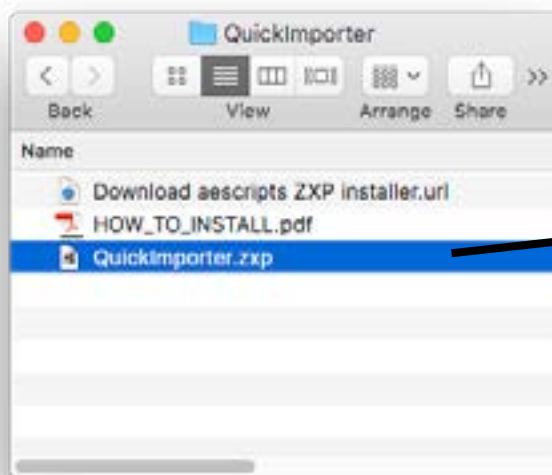

- 1 Download and **install** **aescripts + aeplugins ZXP installer** which is available at <http://aescripts.com/learn/zxp-installer/>
