

GridGuide

installation instructions

Automatic Installation

the easiest way to install GridGuide is to use the **aescripts + aeplugins manager app** which is available at

<https://aescripts.com/forums/discussion/1073/aescripts-aeplugins-manager-app-public-beta>

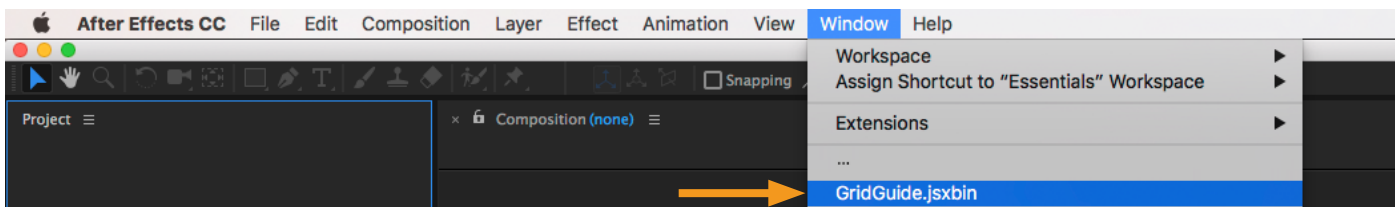

Manual Installation

- 1 **copy GridGuide.jsxbin into the "Script UI Panels" folder** which is usually located here

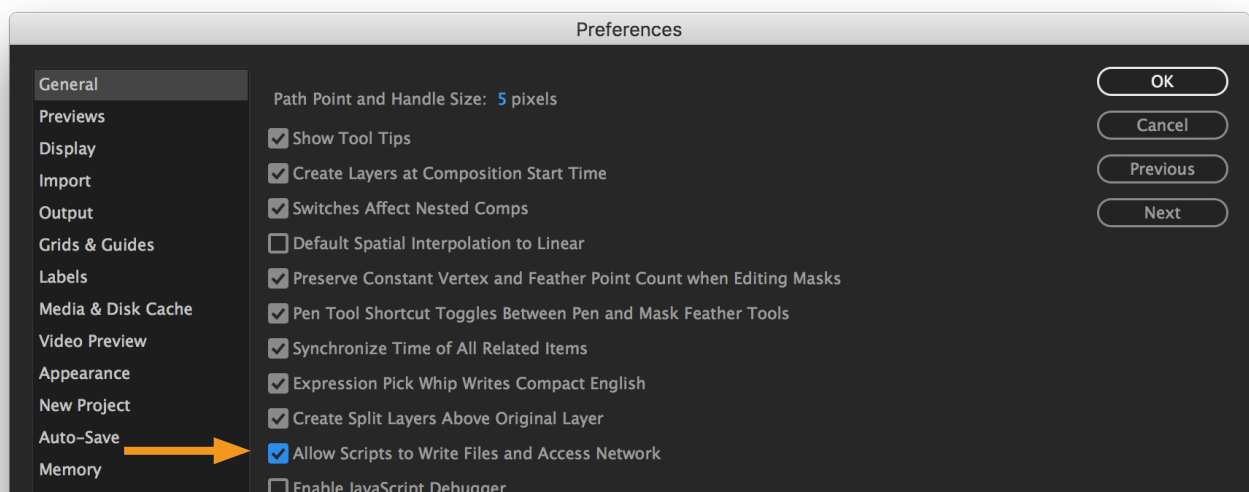

Windows C:\Program Files\Adobe\Adobe After Effects CC 2017\Support Files\Scripts\ScriptUI Panels\
Mac OS /Applications/Adobe After Effects CC 2017/Scripts/ScriptUI Panels/

The underlined part is the location of your Ae installation. If you have not installed Ae in the default location or if you have a different version of Ae installed, adjust this accordingly.

- 2 (Re-)start Ae and **start GridGuide** from the Ae menu Window->GridGuide.jsxbin

- 3 If GridGuide complains that **"Allow Scripts to Write Files and Access Network" must be enabled**, enable it in the preferences here:

Problems?
