

Font Previewer

plugin for Adobe After Effects

version 1.0.4

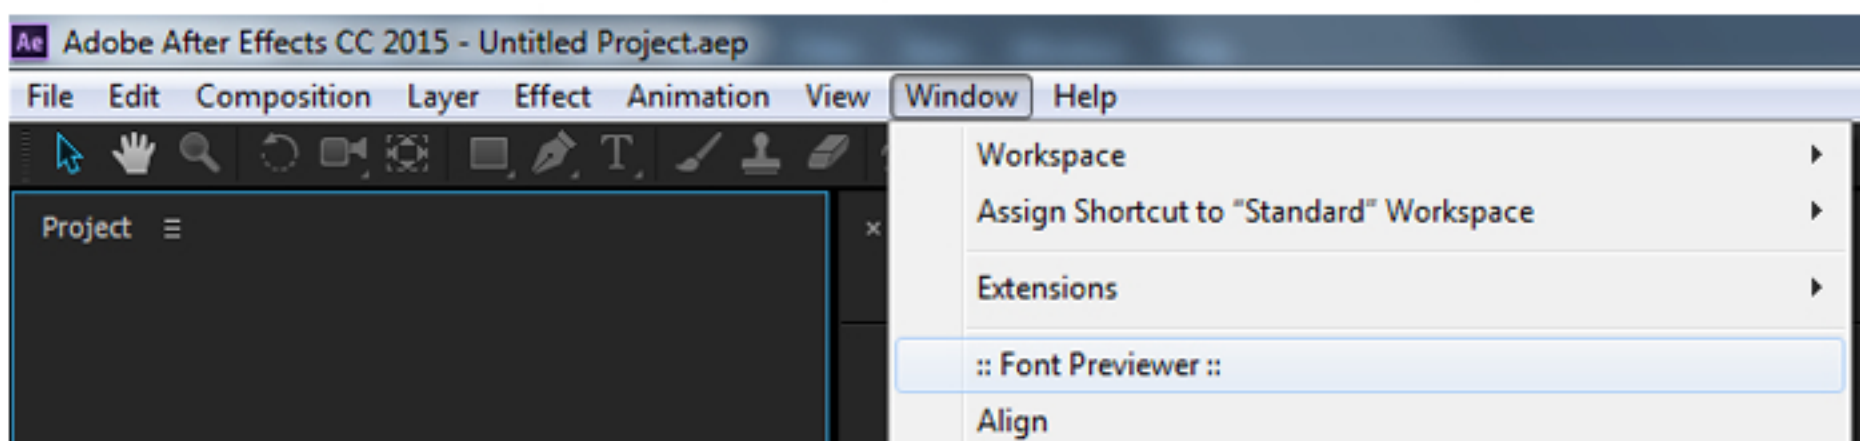

Installation

On Windows

Unpack the archive you have downloaded and copy **Font_Previewer.aex** to Adobe After Effects Plugins folder:

Program Files\Adobe\Adobe After Effects (version)\Support Files\Plug-ins

You can launch Font Previewer plugin in After Effects by clicking **Window > :: Font Previewer ::**

On Mac

Unpack the archive you have downloaded and copy **Font Previewer.plugin** to Adobe After Effects Plugins folder:

{Path to After Effects}\Plug-ins

You can launch Font Previewer plugin in After Effects by clicking **Window > :: Font Previewer ::**

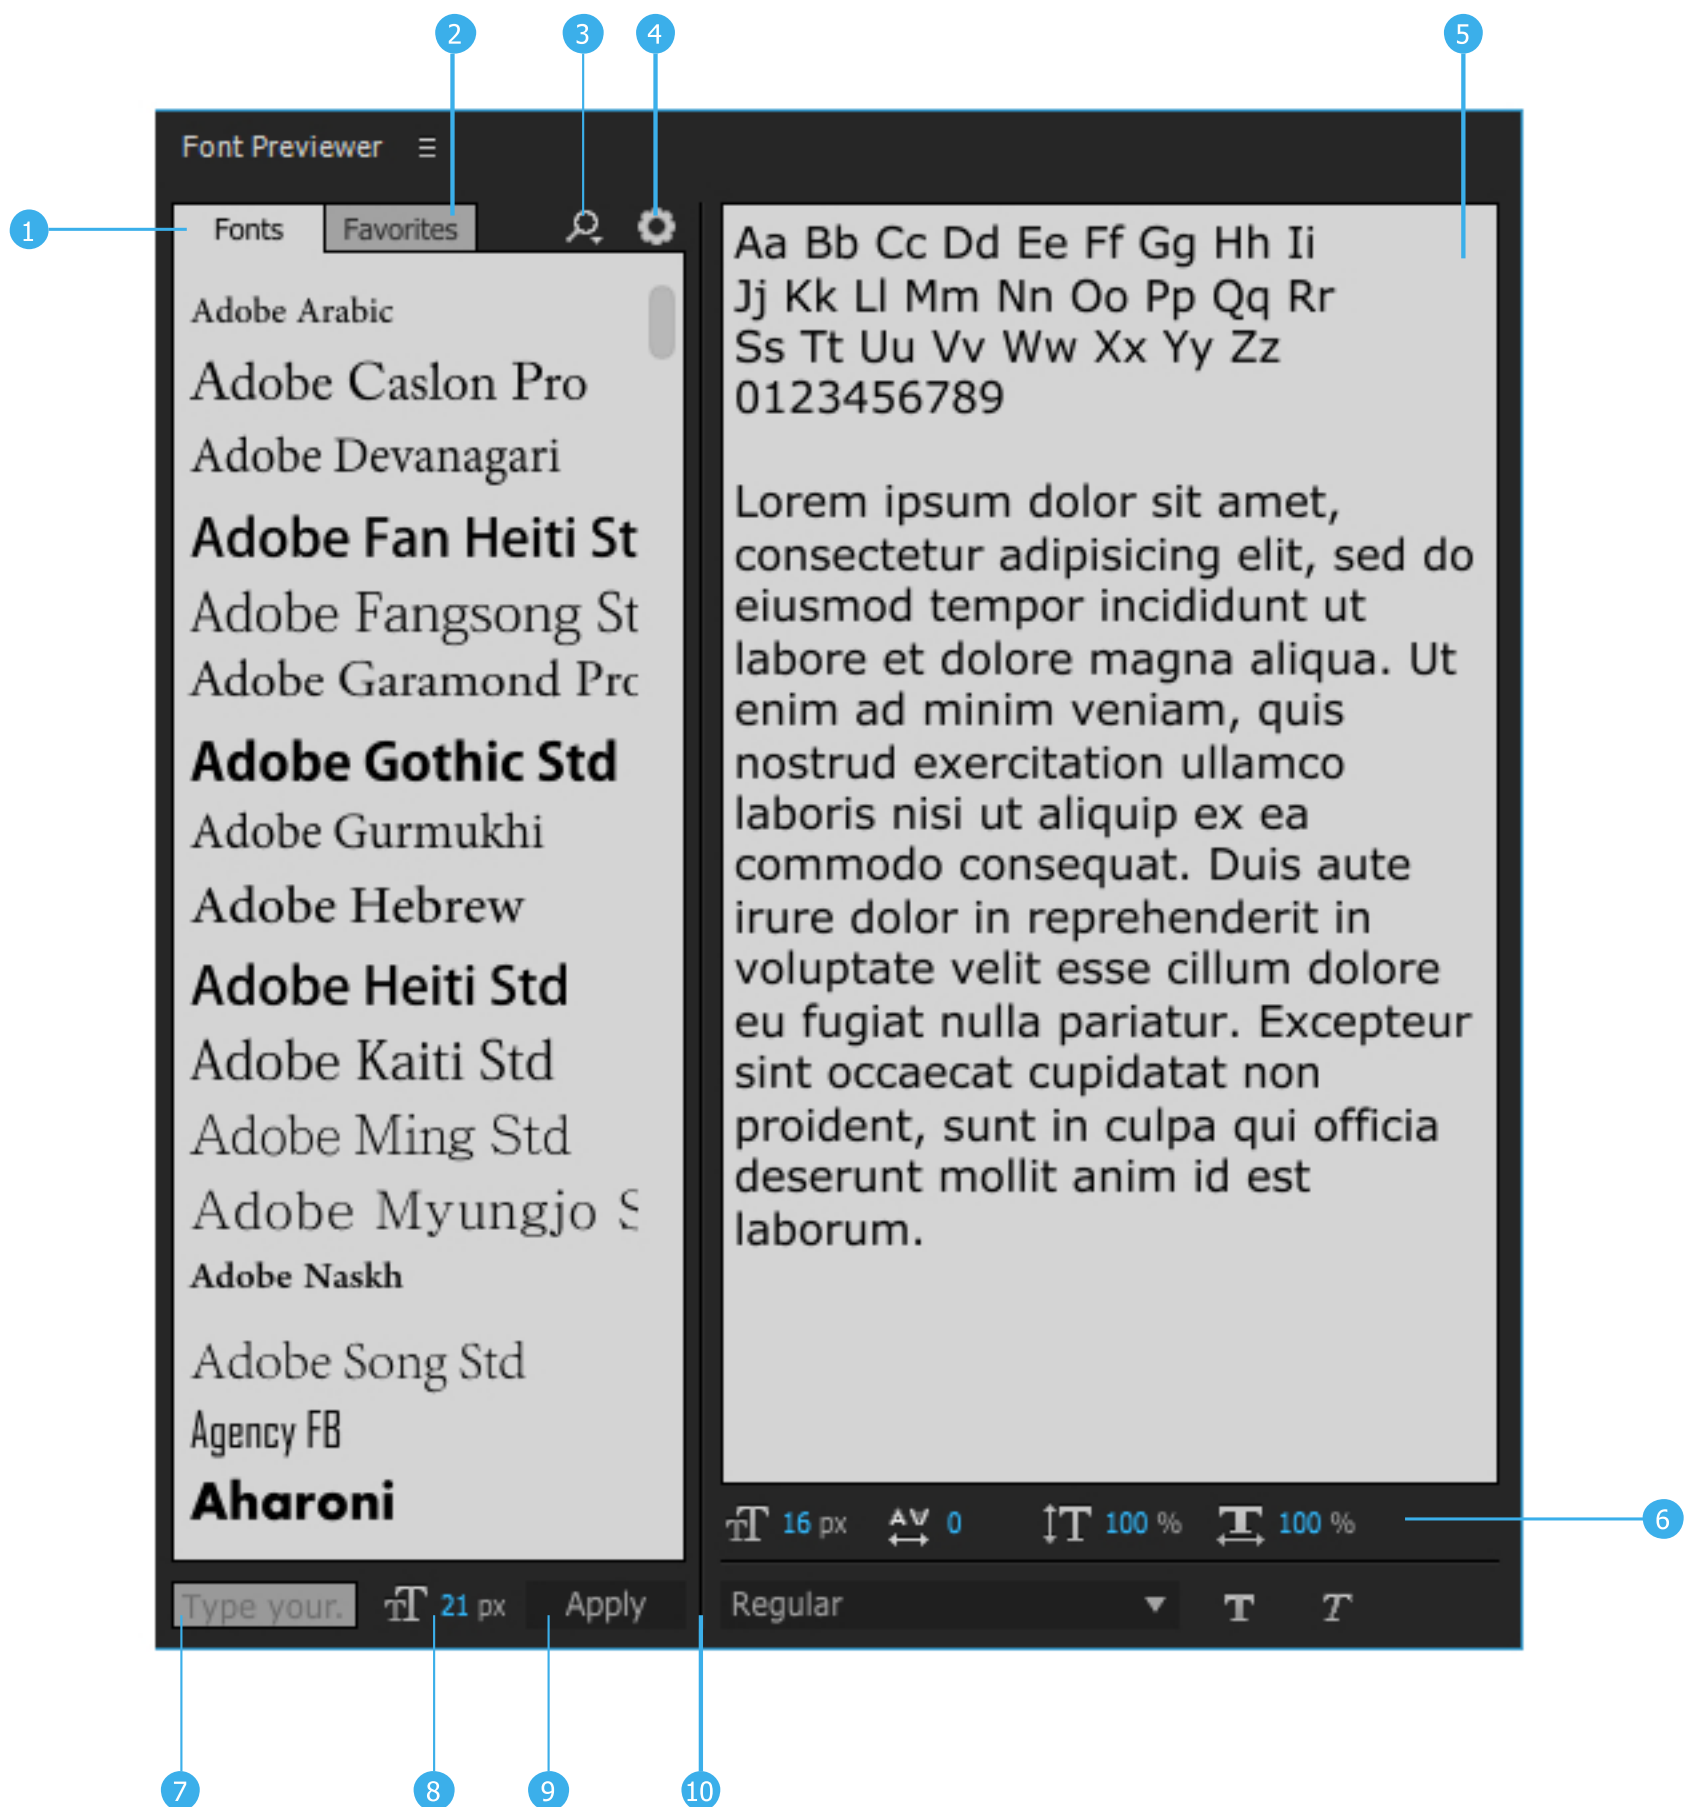

* **Font Previewer preferences file location:**

Preferences and favorites stored in **previewer.dat** file. You can find it in
Windows: C:\Users\{username}\Application Data\Font Previewer

Mac: /Users/admin/Documents/Font Previewer/

To migrate your favorites on a new machine you can replace this file with your previously created **previewer.dat**.
