Overview

Fixel Contrastica 2 AE is a simple, focused and highly tuned **Global and Local Contrast Enhancement** filter.

Fixel Contrastica 2 AE features a **novel algorithm to enhance and boost local & global contrast** in video frames and images.

Contrastica enables you to control the contrast all over tonal range (**Shadows & Highlights**), reveal hidden details and create overwhelming total look.

All done using **intuitive and user friendly** interface.

Fixel Contrastica 2 AE is **Multi CPU accelerated** and compatible with CPU's with SSE4 and up.

Panel & Sliders (AE)

+ Resolution

Set the local contrast effect according to the image resolution.

+ Local Contrast

Local contrast intensity. Higher values amplifies the intensity of the local contrast effect.

+ Global Contrast

Global contrast intensity. Higher values increase the total contrast of the image.

+ Highlights/Shadows Priority

Shifts the contrast priority. Higher values "compresses" (less contrast) the highlights and vice versa.

+ Intensity

Overall intensity of the effect.

+ Luminosity Mode

Preserve saturation mode.
