

## Installing an update

The easiest and preferred way to update *One Click Export* is by using the aescripts+aeplugins manager app. • Open the extension and check if a newer version is available, as shown in the image below.

• If you don't have the aescripts app manager installed, please download and install it from: https://aescripts.com/learn/aescripts-aeplugins-manager-app/

• Open the manager app and enter your username (email) and password to log in.
