# detailizer

*details's equalizer*

# Overview

*Fixel Detailizer* is a **Multi Scale Details Enhancer.**

*Detailizer* features 5 different details scales, **to completely control the contrast level of each detail scale** level. Detailizer benefits from **innovative Wavelets based algorithm**.
Using *Detailizer*, **controlling the details contrast level at each scale** is just like using **Hi Fi Equalizer**.

**Fixel Detailizer** is **Multi CPU accelerated** and compatible with computers with **SSE4** and Up.
