Overview

Fixel Contrastica 2 PR is a simple, focused and highly tuned **Global and Local Contrast Enhancement** filter.

Fixel Contrastica 2 PR features a **novel algorithm to enhance and boost local & global contrast** in video frames and images.
Contrastica enables you to control the contrast all over tonal range (**Shadows & Highlights**), reveal hidden details and create overwhelming total look.
All done using **intuitive and user friendly** interface.

Fixel Contrastica 2 PR is **Multi CPU accelerated** and compatible with CPU's with SSE4 and up.

+ Resolution	Set the local contrast effect according to the image resolution.
+ Local Contrast	Local contrast intensity. Higher values amplifies the intensity of the local contrast effect.
+ Global Contrast	Global contrast intensity. Higher values increase the total contrast of the image.
+ S/H	Shifts the contrast priority. Higher values "compresses" (less contrast) the highlights and vice versa.
+ Intensity	Overall intensity of the effect.
+ Luminosity Mode	Preserve saturation mode.
