Install Instructions

1️⃣ The easiest way to install and license is by using the aescripts + aeplugins manager app

2️⃣ The ZXP can also be installed using the aescripts + aeplugins zxp installer

🖥️ Check out this explainer video which shows how to install and use Emoji Library

To open in After Effects / Premiere Pro, go to *Window > Extensions > Emoji Library*

Troubleshooting

In case Emoji Library is not working as expected, please check the following:

• Your After Effects or Premiere Pro file has been saved.
• An active composition or sequence is open.
• You have an active internet connection.
• You have tried reopening After Effects or Premier Pro.

If Emoji Library does not open, follow these steps:
aescripts.com/knowledgebase/index/view/faq/zxp-cep-extension-won-t-open/

To open a support ticket, go to: aescripts.com/contact/?product_id=2001

Cheers!
