

How to install MographAE:

The easiest way to install and license is by using the [aescrpts + aeplugins manager](#). To install a trial, choose 'Add Trial' from the Account menu.

Alternatively, you can:

1. Locate your “ScriptUI Panels” folder in the “Scripts” folder for After Effects
2. Move “MographAE.jsx” to this folder

Welcome to MographAE! If you are not sure how to use this script:

1. You can click the 'Create Sample Comp' button to see sample compositions using the functions.
2. You can click on any MographAE Controller layer or effect and click 'Show Help' to open the docs.
3. You can also directly read the docs here: [Notion link](#)
4. You can read the tooltips of functions by mousing over them.
5. If you have trouble getting the script to work, try:

Checking that you have Javascript Expression engine on in the Project Settings.

1. Checking that you have 'Allows Scripts to Write Files and Access Network' enabled.
2. That your version of AE is compatible.
