

Automation Blocks for Premiere Pro Installation Instructions

Automatic Installation

The easiest way to install and license is by using the [aescripts + aeplugins manager app](#). To install a trial you can select 'Add Trial' from the 'Account' menu

Manual Installation

Alternatively, you can install the xzp file included in the product download using the [ZXP/UXP installer](#).

Just launch the installer and drag the file automationblocks_Pr_[...].xzp on the installer window.

If you now restart Premiere Pro, Automation Blocks is available in the menu Window->Extensions->Automation Blocks

Issues?

If the panel does not open properly, please try [this solution](#). If this does not solve your problem, please [open a support ticket](#).
