## What Its It?

This revolutionary script allows you to focus on the layers that interest you most with just one click, giving you a clear and uncluttered view of your timeline. Forget about wasting time searching through a sea of layers; Shy Bar simplifies the process and allows you to focus only on what really matters.

The Shy Bar UI Panel

## Installation

The easiest way to install and license is by using the [aescripts + aeplugins manager](#).

To install a trial you can select '**Add Trial**' from the 'Account' menu.

On this page

[What Its It?](#)

[Installation](#)

[Licensing & Trial](#)

[Uninstallation](#)

Or you can do manually, here is the steps:

**Before you begin:**

Ensure After Effects is closed.

**Installation Steps:**

1. Unzip the downloaded file from aescrpts.
2. Locate the file named **Shy Bar.jsxbin**.
3. Copy **Shy Bar.jsxbin** to the ScriptUI Panels folder.
4. If you prefer a label colors panel independent. Copy **Shy Bar - Labels.jsxbin** to the ScriptUI Panels folder.

**Not sure where the ScriptUI Panels folder is?**

**Don't worry, we've got you covered:**

- **For MacOS Users:**

Open the following path:

```
/Applications/Adobe After Effects  
(version)/Scripts/ScriptUI Panels
```

- **For Windows Users:**

Navigate to:

```
Program Files\Adobe\Adobe After Effects  
(version)\Support Files\Scripts\ScriptUI Panels
```

**Finalizing the Installation:**

That's it! You're almost there.

1. Reopen After Effects.

2. To launch **Shy Bar**, go to **Window > Shy Bar.jsxbin**.
3. If you installed Shy Bar Label Colors Panel, to launch , go to **Window > Shy Bar - Labels.jsxbin**.

 **Shy Bar** is specifically designed to be docked into the After Effects interface. It won't run from File > Scripts menu.

## Licensing & Trial

We're confident that Shy Bar will become your new favorite, but we understand the importance of taking your time. Download our trial version today and explore its wonders. Here's a sneak peek into the trial's limitations, just to keep you in the loop:

### **Trial Limitations:**

#### **1. Layer Selection:**

You can view and select up to 5 layers at a time. Experience the essence of Shy Bar with a taste of its layer management prowess.

#### **2. Search Window Exploration:**

In the search window, you're limited to entering just 3 words or letters. Just a glimpse of the search capabilities Shy Bar brings to the table.

## Unlock the Full Potential:

Ready to unleash Shy Bar's full power? It's a simple process:

1. **License Activation:**

When you're convinced, grab your license code from your aescrpts account or by the

[aescrpts + aeplugins manager](#).

2. **Seamless Activation:**

Copy and paste the provided license code into the box that appears upon startup.

That's it – Shy Bar is now yours to command.

## Uninstallation

Farewell, but don't worry; it's a breeze to bid adieu to Shy Bar when the time comes. Follow these effortless steps:

Best way for uninstall is using the [aescrpts + aeplugins manager](#) it do with one click.

Or you can do manually, here is the steps:

1. **Locate the Script:**

Head over to your ScriptUI Panels folder and find the beloved **ShyBar.jsxbin** file.

2. **Delete with Ease:**

Give it a little wave goodbye and confidently press that delete button on **ShyBar.jsxbin**.

### **3. Mission Accomplished:**

That's it! You've successfully parted ways with Shy Bar. Your After Effects is now as it was before – sleek, streamlined, and ready for whatever comes next.

Feel free to return whenever you're ready for another rendezvous with Shy Bar or any other exciting scripts. Until then, take care and create magic in After Effects!
