

# Super 3D - AeScripts - Installation Guide

The latest version of the Installation guide is on [this Notion page](#).

You can find detailed instructions on how to use the Super3D on the [Notion documentation page](#).

## Compatibility

The Super 3D is compatible with After Effects version **24.1 and newer**.

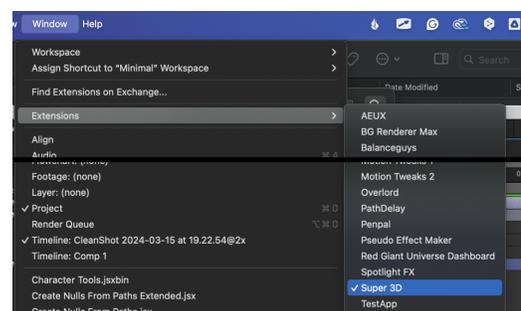

## Install

The easiest way to install and license is by using the [aescripts + aeplugins manager](#). To install a trial you can select 'Add Trial' from the 'Account' menu.

Alternate install option: install using the [ZXP Installer](#).

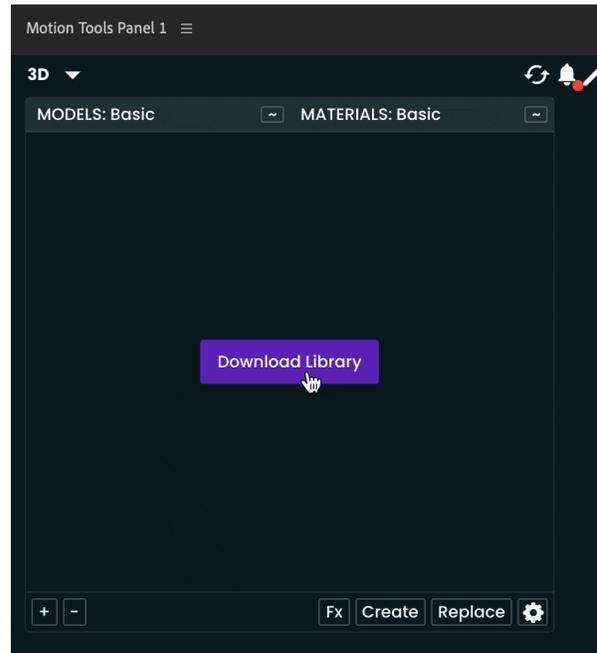

Drag `super3d_{version}.zxp` file into ZXP Installer.

- Close and re-open After Effects.
- Navigate to the top Window menu, *Extensions* → Super 3D.
- Click to open the panel.

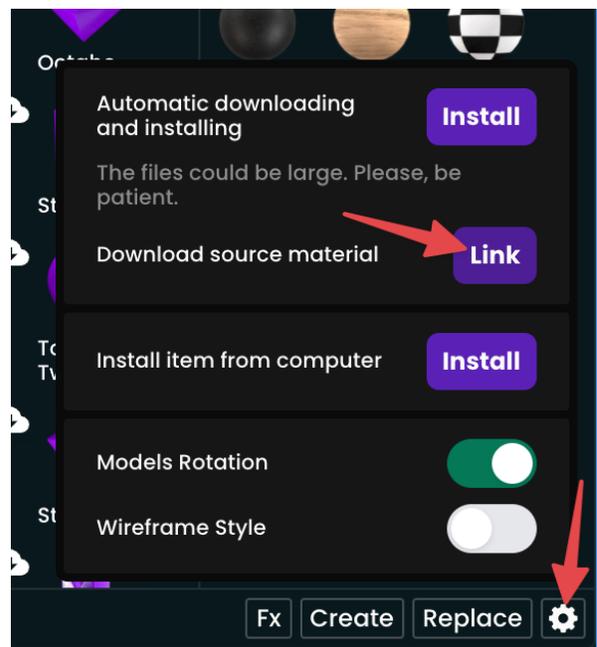

## Downloading Basic Material

To access the Super 3D models and materials, click the **Download Library** button. This initial download is compact, around two dozen MB.

If you have issues with downloading, you can download material manually.

# License

If you need some feedback or you need to update your license, check these settings from the script panel menu
