

Limber

Thanks for buying Limber. Your support helps us to keep doing what we do.

INSTALLING LIMBER

You can install Limber through the [aescripts manager app](#) or you can install it like this:

Unpack the .zip archive you downloaded and move the file “Limber 2.jsxbin” to your “ScriptUI Panels” folder, which is located here:

Windows: Program Files\Adobe\Adobe After Effects <version>\Support Files\Scripts\ScriptUI Panels

Mac OS: Applications/Adobe After Effects <version>/Scripts/ScriptUI Panels

Restart After Effects and open Limber by clicking Window > Limber 2.

USING LIMBER

You have a few options to learn how to use Limber. You can click on buttons and see what happens, you can watch the short videos in the [official YouTube playlist](#), or you can check out the [User Guide](#).

NEXT STEPS

Join our [Discord server](#) and get targeted help, quickly. It’s monitored and moderated and your voice will be heard and it will be answered.

We also have a bunch of handy [freebies](#) and some other [paid tools](#) to help expand your design and animation boundaries.

Thanks!

Steve
