

# Handy Particles<sup>PRO</sup>

The easiest way to install and license is by using the [aescripts + aeplugins manager](#)

<https://aescripts.com/learn/aescripts-aeplugins-manager-app/>

## What is the manager app?

The aescripts + aeplugins is a standalone desktop application for macOS and Windows that allows you to install, update and license all your scripts and plugins. It also allows you to install trials. It can group and filter and overall makes managing all your scripts and plugins a breeze!

As an alternative, you can install it using the ZXP Installer:

<https://aescripts.com/learn/zxp-installer/>
