

PARALLEL

animated typeface

Follow these two simple steps to install script:

1. Unpack the archive you have downloaded and copy/paste "Parallel.jsx" to "ScriptUI Panels" folder:

- Windows: Program Files\Adobe\Adobe After Effects <version>\Support Files\Scripts
- Mac OS: Applications/Adobe After Effects <version>/Scripts

If folder **ScriptUI Panels** does not exist, create a folder and name it "ScriptUI Panels". Then paste the copied files into it.

2. Allow script to access network to avoid unnecessary problems while loading GUI. This option is under **General** tab of **After Effects Preference** pane:

- Windows: Edit > Preferences > General
- Mac: After Effects > Preferences > General

Once Installation is finished run the script in After Effects by clicking **Window > Parallel**

If you are using After Effects CS3 - CS6, please also make sure to install Pseudo Effect provided with the package. To do that, simply execute "Install PE for Parallel.jsx" and follow on screen instructions.
