Gridder

INTRODUCTION

Gridder 2 helps you arrange After Effects layers into various grids: 2D, 3D, Circular and Spiral.

Gridder 2 is a spiritual successor of Gridder script released in 2013 ported to CEP with new updated and slick interface, custom controls and updated engine.
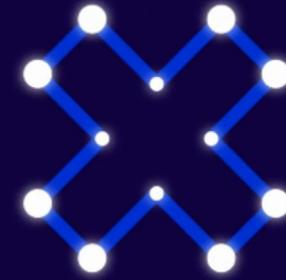

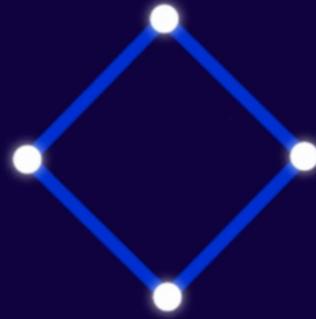

CREATE 2D GRIDS
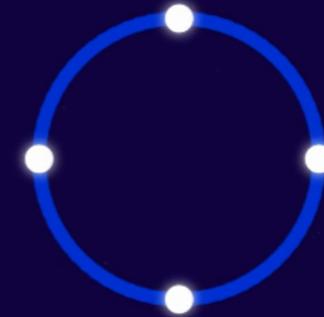

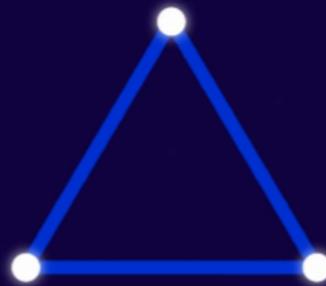

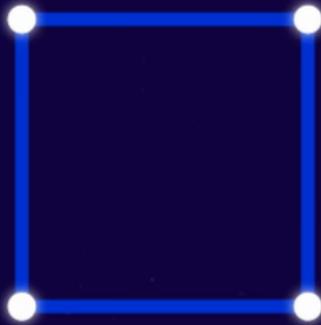

VERSION HISTORY

v1.0 – Initial Release

v1.1 – Expressions updated for CC2019

INSTALLATION

Download and install **ZXP installer** from aescripts+aeplugins

Open Gridder zxp file in it and the installation would finish automatically.

Installer might ask you to grant additional permissions.

RUNNING GRIDDER

After install you will find Gridder2 entry under the Window - Extensions menu on both MacOS and Windows.
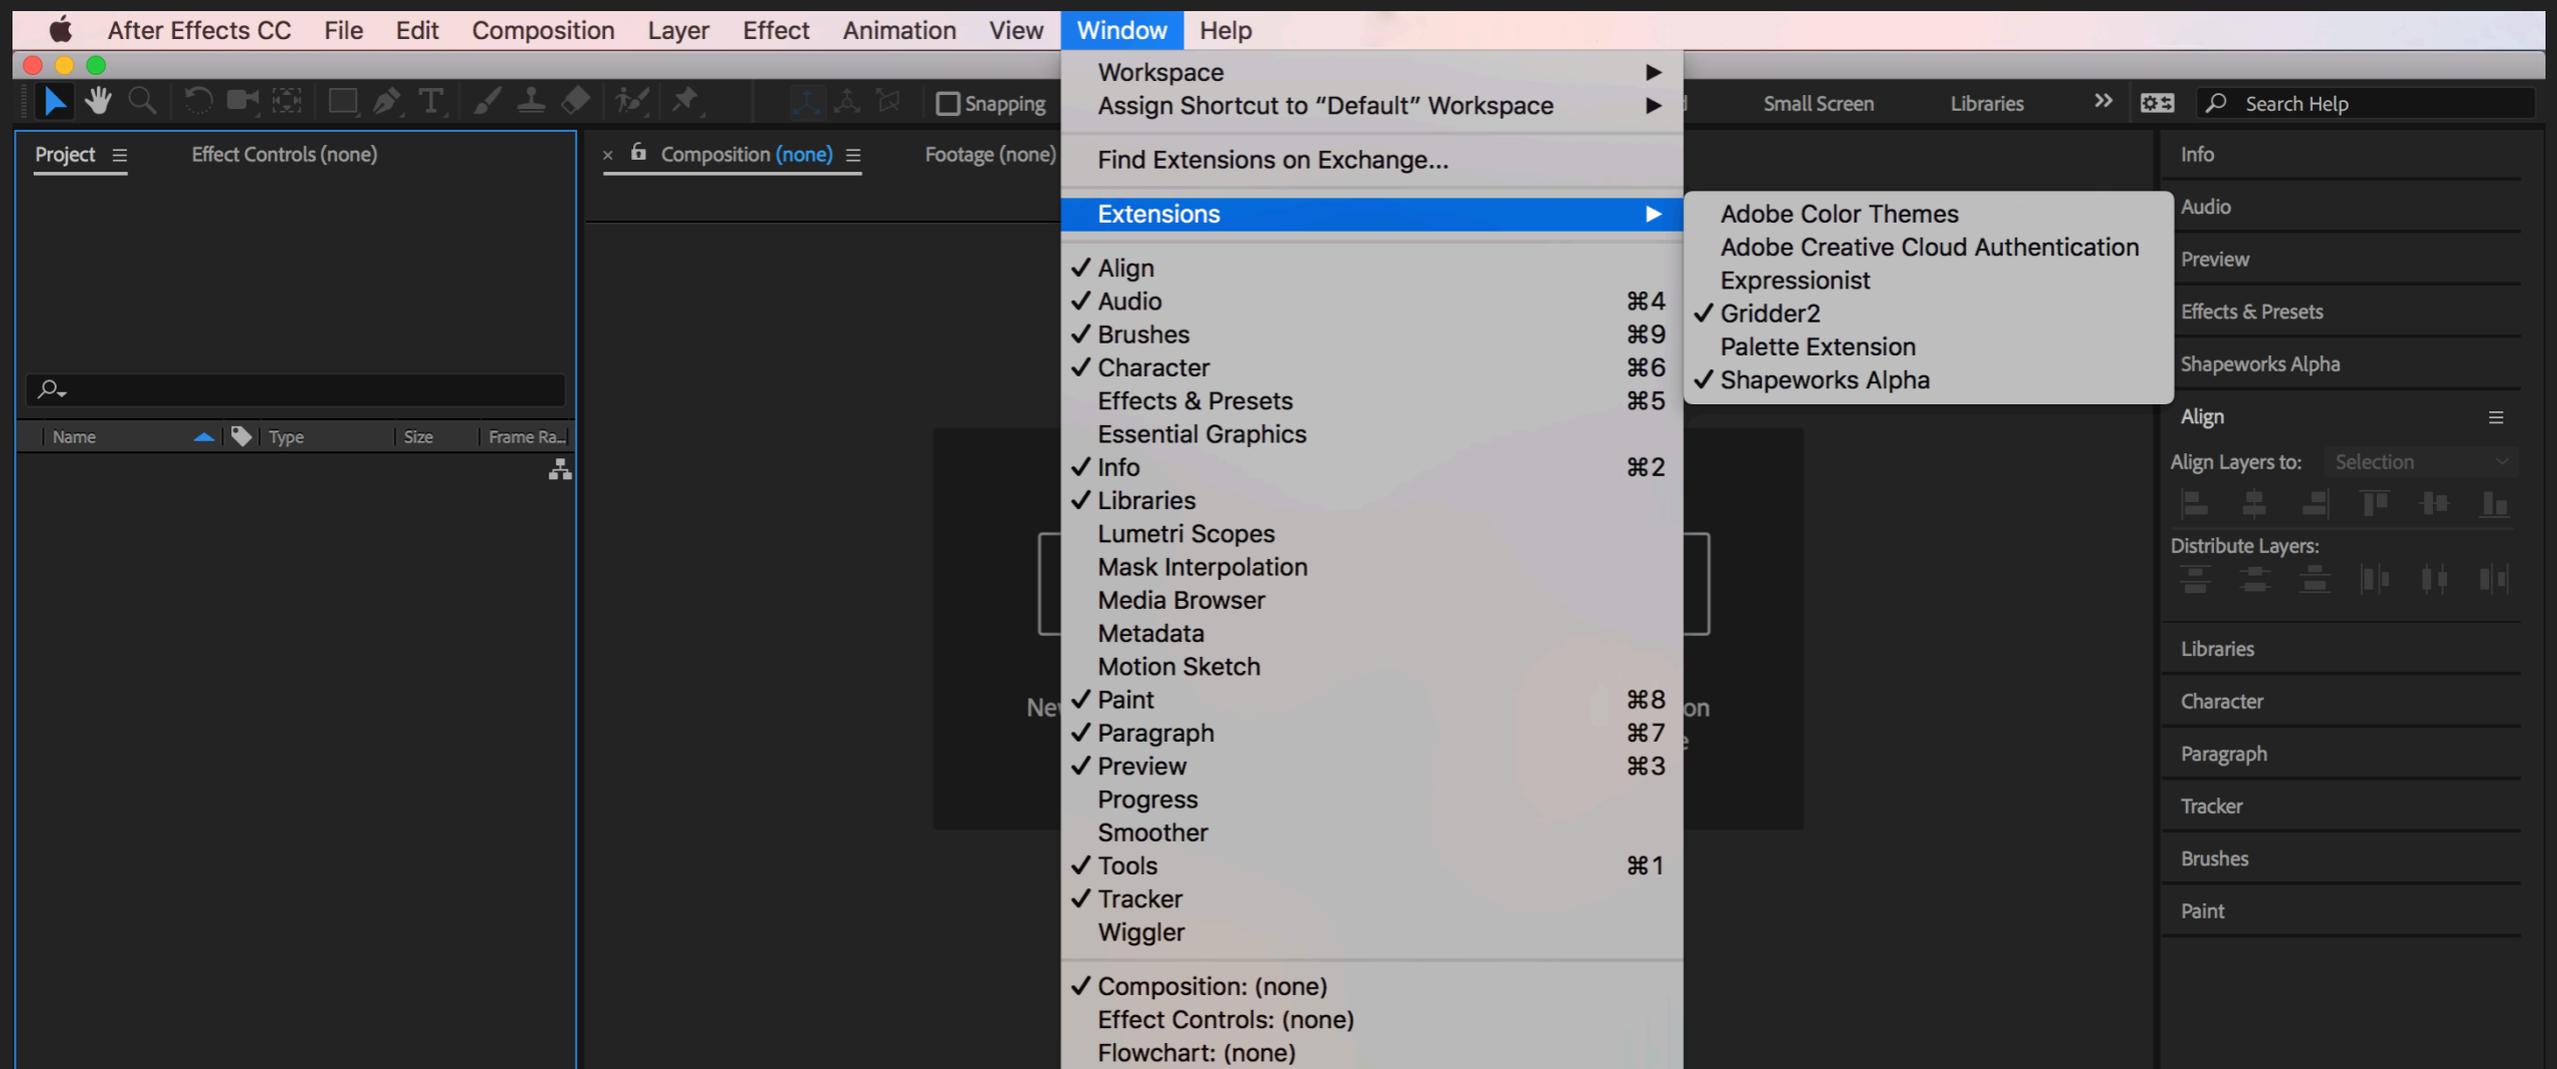

CREATE 3D GRIDS
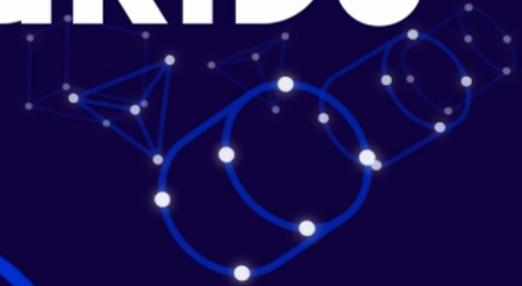

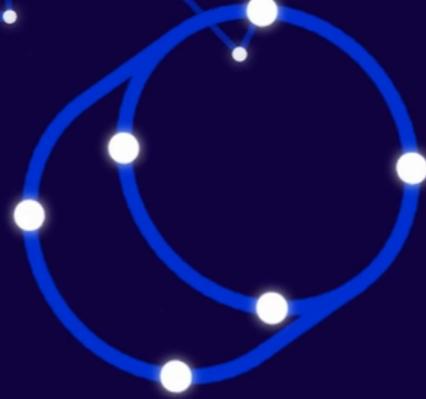

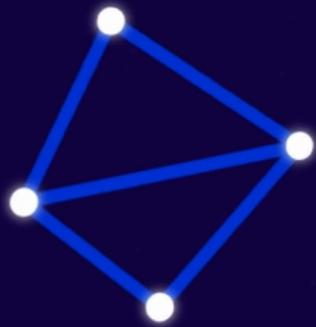

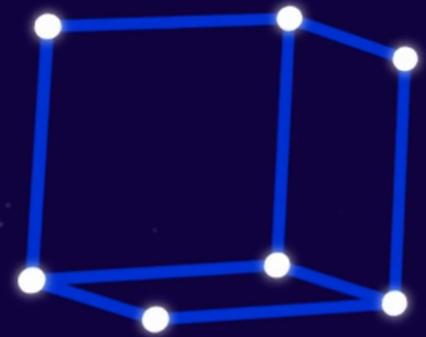

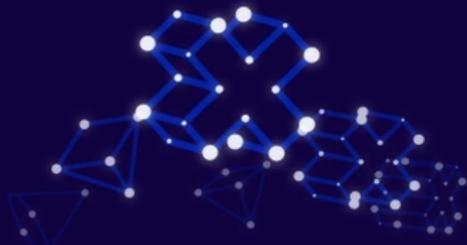

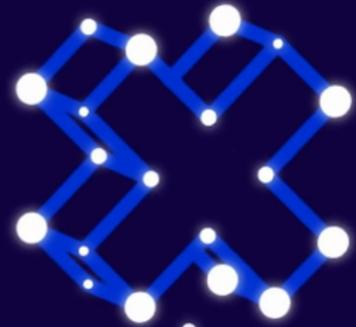

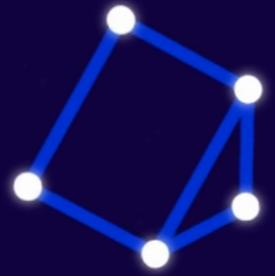

TUTORIALS

Even though Gridder is really intuitive, there's a tutorial not to get lost:
