

# Topograph

## Installation

1. Install the plugin by copying it in the Plugins folder of After Effects.

on Windows:

Copy : Topograph.aex to:

C:\Program Files\Adobe\Adobe After Effects CC 2019\Support Files\Plug-ins\

on Mac:

Copy : Topograph.plugin to:

/Applications/Adobe After Effects CC 2019/Plug-ins/

2. Open After Effects. You will find the plugin under “Gabgren 2000” in the Effects menu.

## Registration

Unless you enter your serial number, Topograph will run in TRIAL mode and display a red cross over the output. To register, add Topograph effect to a layer, then click the Register button on top of the plugin parameters.

You can find your license code in the ‘My Downloads & Licenses’ section of your user account on aescrpts+aeplugins. (<https://aescrpts.com/downloadable/customer/products/>).

You can also use aescrpts+aeplugins Manager App to license the plugin:

<https://aescrpts.com/learn/aescrpts-aeplugins-manager-app/>

## Post your work :)

It's always a pleasure to see what you create with the tool.

Use [#topographplugin](#) on Instagram to show your work and get reposted!

## Need help?

The easiest way to contact me is to [open a ticket on aescrpts](#).

The full documentation on how to use the plugin can be found here:
