aescrpts.com/motioneer-lite/

Copyright © 2020 - 2023
Marco Sanasi. All rights reserved.

Motioneer Lite is a motion engine: copy animations, then attach them or apply to selected layers retaining comp / layers ratio. Motioneer supports : layers and keyframes multiple selection, transformations, masks, parents, track mattes, expressions.

Copy button copy selected layers, masks, and keyframes.

Edit tool generates a guide layer to transform selected layers keyframes's positions motion paths.

Remove tool removes all selected layers keyframes from transformations, masks, expressions, and also removes track mattes and parents links.

Settings button opens the settings window.

Installation.

Copy "Motioneer Lite.jsxbin" to your ScriptUI Panels folder, depending on the OS.

Windows:

C:\Program Files\Adobe\Adobe After Effects [version]\Support Files\Scripts\ScriptUI Panels\

Mac:

/Applications/Adobe After Effects [version]/Scripts/ScriptUI Panels.

Or use the Aescripts manager app.

Trial limitations

Trial mode is limited to 15 edit - add - remove - replace operations.

Release notes

1.0 - Initial release.

1.0.1 - fixed: Motioneer Lite can't add if locked layers are present in the comp.

1.1.0 - license framework updated.
