

PixelsWorld is an After Effects plugin where you can run Processing-like code to build shapes on solid layers.

## INSTALLER

The easiest way to install is by using the aescrpts + aeplugins manager app: <https://aescrpts.com/learn/aescrpts-aeplugins-manager-app/>

Simply login to the installer and click on the 'Install' button, then click on the 'License' button and you are all ready to go!

## MANUAL INSTALL

If you prefer to do things manually then copy the Milai folder to the After Effects plugins folder:

(Your Ae root folder)\Support Files\Plug-ins\MiLai\

Make sure that the PixelsWorld's path is something like "(Your Ae root folder)\Support Files\Plug-ins\MiLai\PixelsWorld.aex"

## USAGE

Start After Effects and you will find it under **Effect->MiLai->PixelsWorld**

Enter your license code as explained in the FAQ: <https://aescrpts.com/knowledgebase/index/view/faq/how-to-register-plugins/>

## RUN AE AS ADMIN TO SAVE PRESETS

Right click Ae icon > Properties > Compatibility > Check "Run this program as an administrator" > OK

(Admin mode is required only when you save your preset code to local)

## SUPPORT

If you require assistance please open a support ticket here: <https://aescrpts.com/contact/?direct=1&sku=ZSPW-SUL>
