

# SMART COLLECT

by Premiere Pro Automation

## Installation Instructions

Smart Collect is a ZXP extension for Premiere Pro. Unfortunately, Adobe discontinued their development of Adobe Extension Manager, which was used to install ZXP extensions. Note that Adobe Extension Manager does not work anymore with CC 2014 or newer! As an alternative, we developed and maintain the *aescripts + aeplugins ZXP installer*. So please install Smart Collect using *aescripts + aeplugins ZXP installer* as described here.

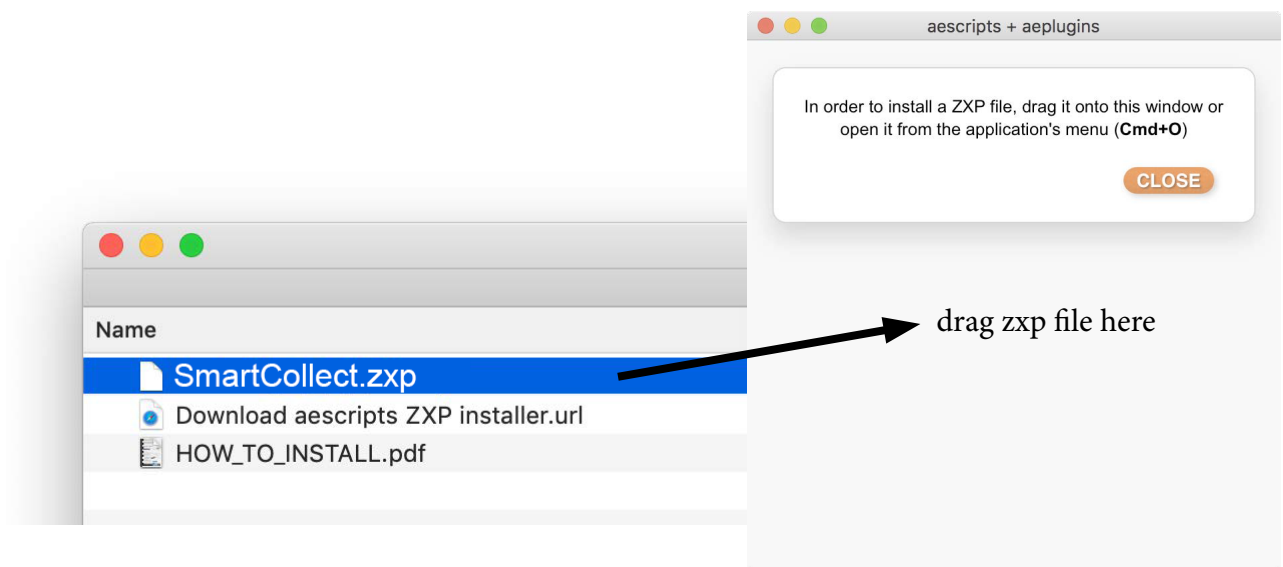

## Installation on Mac OS

- 1 Download and install *aescripts + aeplugins ZXP installer* which is available at <http://aescripts.com/learn/zxp-installer/>

*aescripts + aeplugins*  
**ZXP Installer**

- 2 Start *aescripts + aeplugins ZXP installer* and drag the *zxp* file of Smart Collect onto the installer window

If you have any issues, don't hesitate to open a support ticket at <http://aescripts.com/contact/>

- 3 Congratulations! If you now start Premiere Pro, Smart Collect is available in the menu Window->Extensions->Smart Collect
