GoType is a compact, procedural text animation tool for After Effects. It requires After Effects CC 2017 or later.

Installation:

To install **GoType** as a dockable panel, drag the GoType.jsxbin file and the GoType folder into After Effects/Scripts/ScriptUI Panels (MAC) or After Effects/Support Files/Scripts/ScriptUI Panels (Windows) and restart After Effects. The GoType folder contains effect controls required by GoType, so make sure it is placed in the same location as the GoType.jsxbin file. Note: **do not** put the GoType.jsxbin file inside the GoType folder.
