

INSTALLATION GUIDE

DATAMOSH 2

The title 'DATAMOSH 2' is rendered in a bold, white, sans-serif font. The number '2' is significantly larger than the letters and is positioned behind the word 'DATAMOSH'. The entire title is surrounded by a complex, multi-colored glitch effect consisting of overlapping, semi-transparent outlines in shades of cyan, magenta, and yellow, giving it a digital, corrupted appearance.

AFTER EFFECTS DATAMOSHING

Step 1 (easiest)

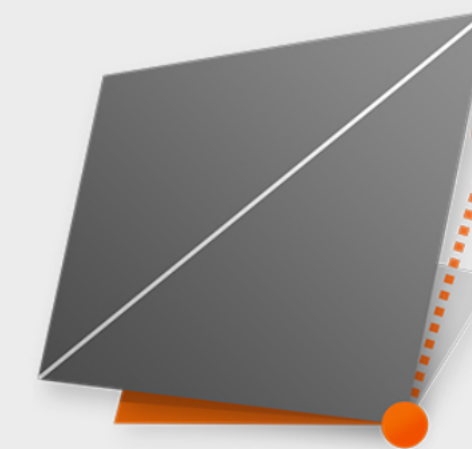

The easiest way to install and license is by using the aescripts + aeplugins manager app

<https://aescripts.com/learn/aescripts-aeplugins-manager-app/>

To install a trial you can select 'Add Trial' from the 'Account' menu

aescripts + aeplugins manager app

aescripts + aeplugins manager

We have a lot of products now, and now it's a lot easier to manage them! Please download our **aescripts + aeplugins manager app** to **download, license and update** all your aescripts tools in **one click!**

[Download for macOS](#)

[Download for Windows](#)

Step 1 (alternative)

You can also use the installer instead of the manager. Download and install ZXP Installer from aescrpts + aeplugins.

ZXP Installer

We are happy to share with the community our **FREE** installer for CEP extensions for [Adobe After Effects](#) and [Premiere Pro](#). It will work with any ZXP extension, it does not have to be one you got from us. It has a fallback custom install option that should work in cases where other installers (including Adobe's own installer) fail. So if you have been unable to install a ZXP extension on your system please give our installer a try. It has a super friendly and easy to use drag and drop on Mac and double-click on Windows.

****Please note that the issue with macOS High Sierra has been fixed.** If you still have any issues, please [open a support ticket](#)

Download Mac OS X

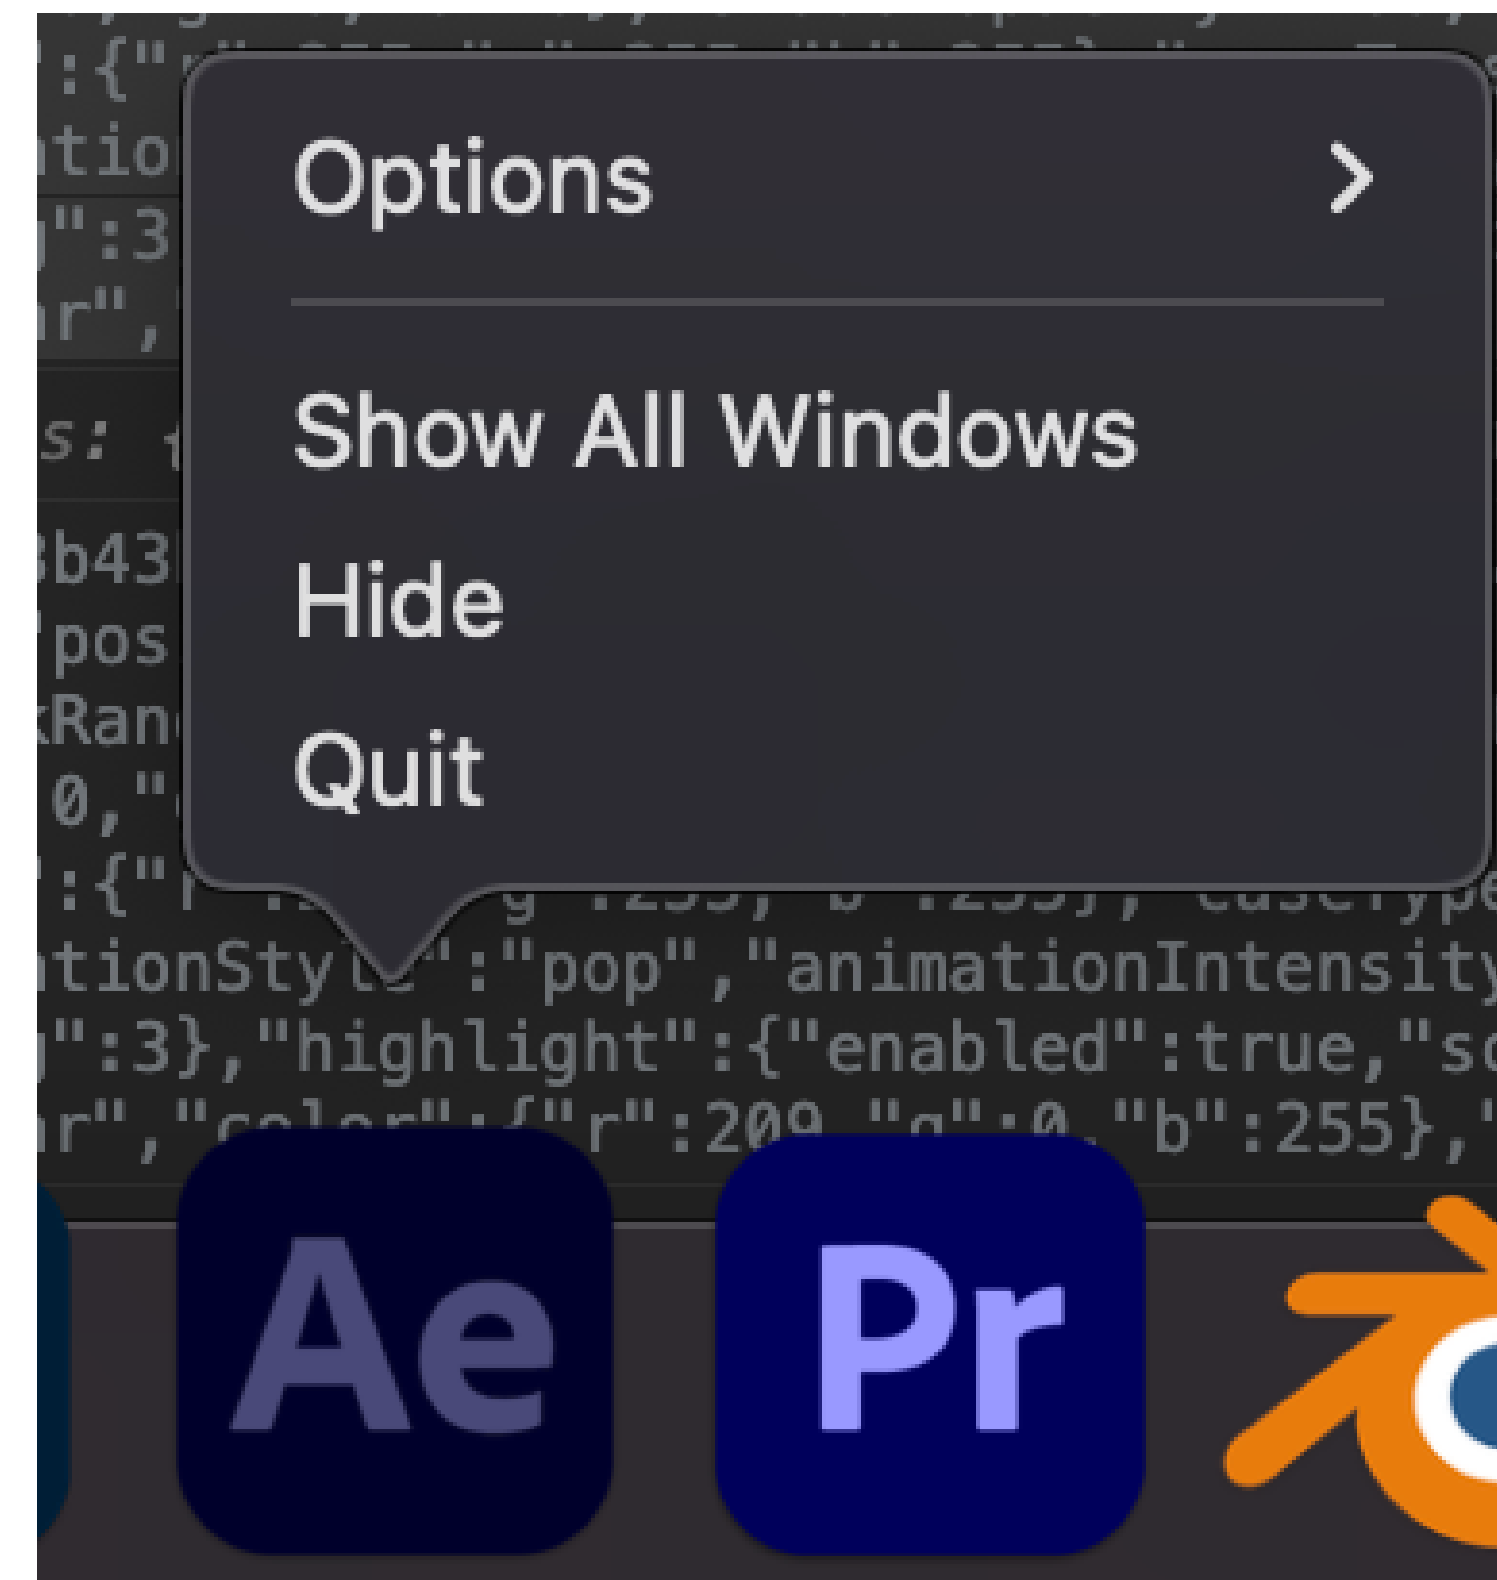

Download Windows

Step 2

Drag and drop the Datamosh2.zxp into the installer and follow the instructions.

Step 3

Restart After Effects.

Step 4

Open Datamosh 2
under Windows/Extensions
/Datamosh2.
