

# QUICK START

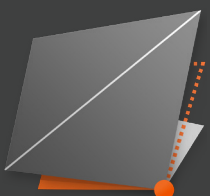

## 0. INSTALL & OPEN

To install and license Auto Transition Builder, you'll need the [aescripts manager app](#) or [ZXP installer](#)

Once that's installed:

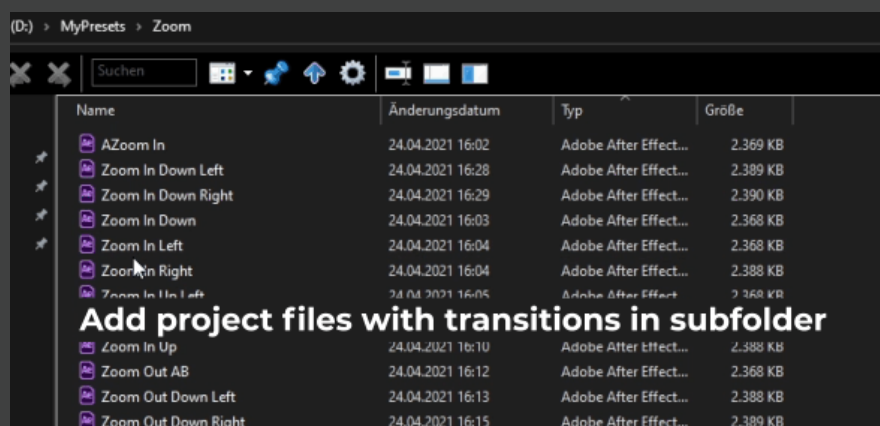

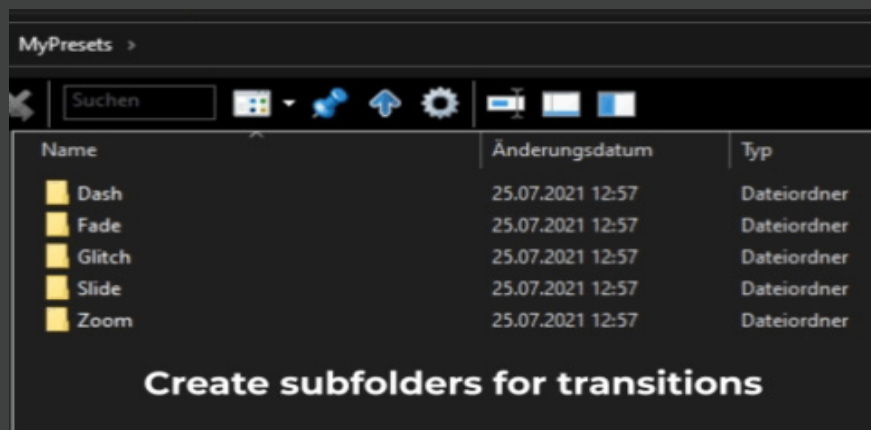

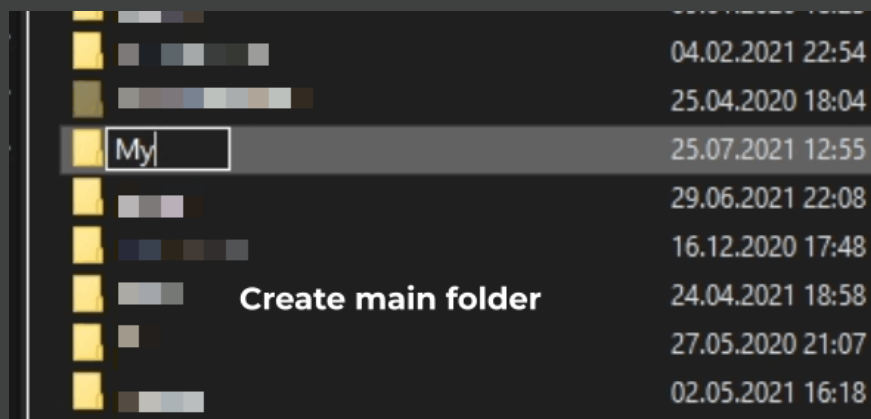

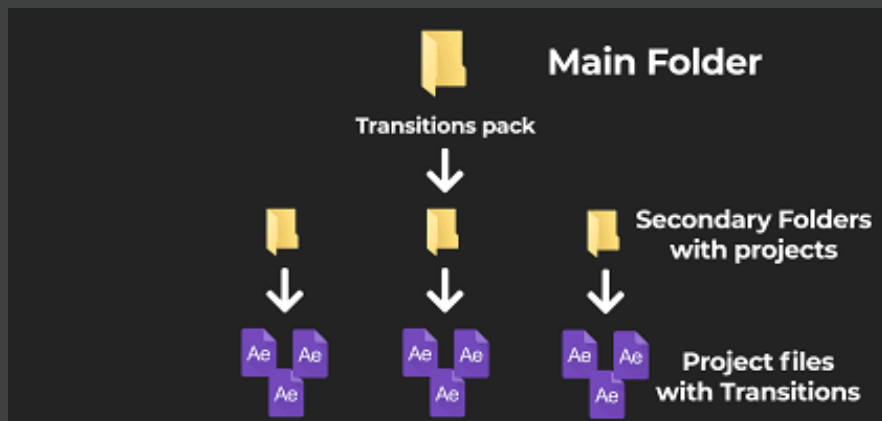

1. Download Auto Transition Builder from your aescripts+aeplugins account.
2. Install Auto Transition Builder with [aescripts manager app](#) or [ZXP installer](#)
3. Install our [Transition pack](#)
4. Restart After Effects after installation.
5. Click in After Effects on Window > Extensions > Auto Transition Builder.

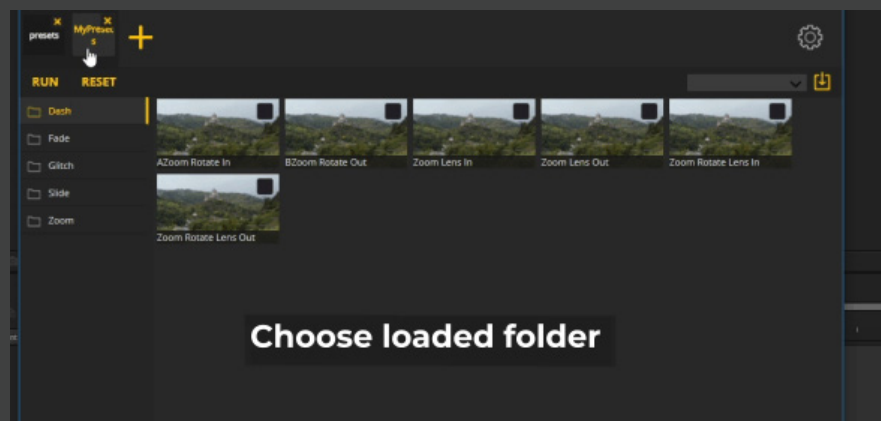

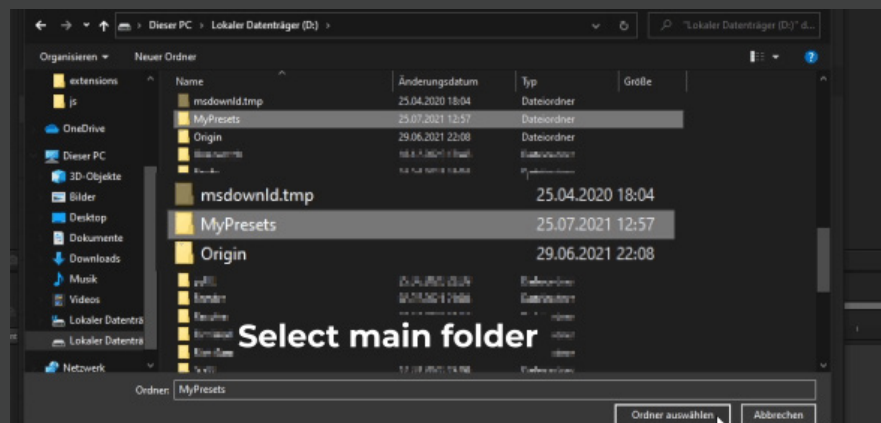

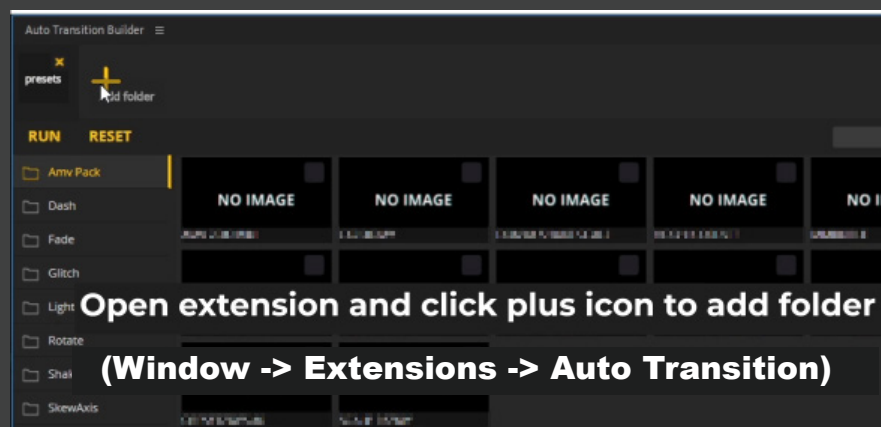

You can read the quick tutorial down below or watch our [Tutorial](#)

# QUICK START

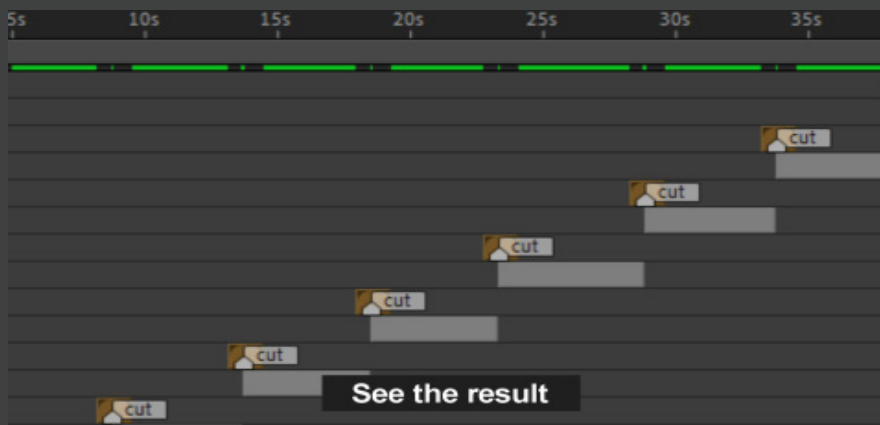

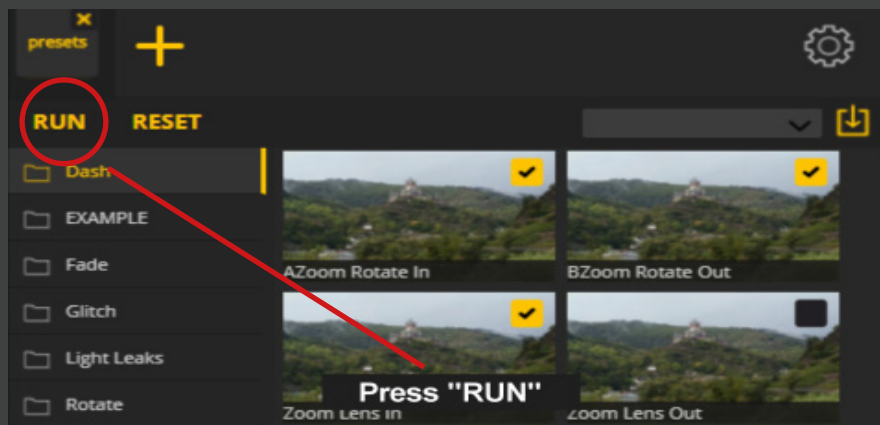

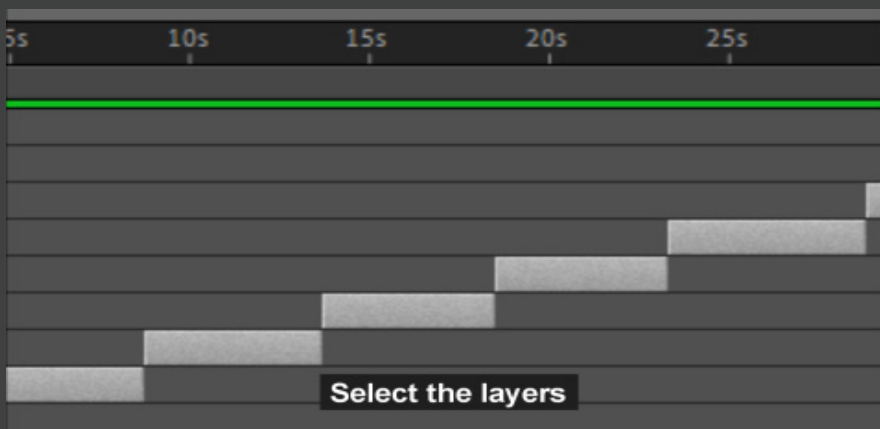

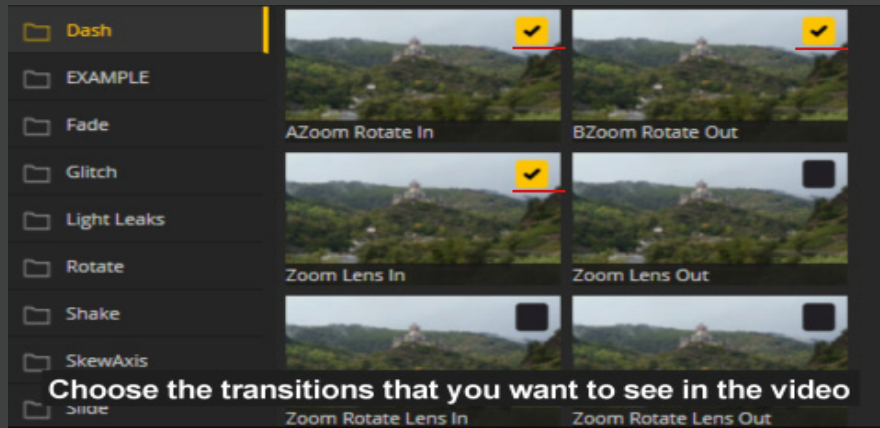

## 1. Create and select your Transition Pack

# QUICK START

## 2. Auto Editing Function

# QUICK START

## 3. Create your custom transitions
